

JACK TABLE

COMPACT TABLE PRESS

- Quick and nimble platen press
- Fully integrated safety light curtains
- 50T pressing capacity
- Suits all small truss types

Description:

The MiTek Jack Table is a quick and nimble platen press ideally suited to the construction of small trusses: jacks, saddles, creepers, etc.

The unistrut rails matched with a HDPE plastic top provides a quality working surface that accommodates tooling for larger trusses.
